

ZEYAD AHMED HELAL

Junior Full-Stack Developer

+20 127 563 5884 · zeyadhelal33@gmail.com · [LinkedIn Profile](#) · [Portfolio](#) · Port Said, Egypt

PROFESSIONAL SUMMARY

Junior full-stack developer with hands-on experience building responsive, dynamic web applications using React, Node.js, and PostgreSQL. Currently pursuing a Bachelor's degree in Software Engineering at Suez Canal University, complemented by multiple industry-recognized certifications from Codecademy and ITI. Proficient in both frontend and backend development with a strong grasp of REST APIs, version control with Git, and modern JavaScript. Eager to contribute to a collaborative development team and grow within a product-focused engineering environment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js

Backend: Node.js, Express.js, Python

Databases: PostgreSQL, SQL

Tools & Workflow: Git, GitHub, REST APIs, VS Code

Other Languages: Java, C++ (academic experience)

PROJECTS

Bank System | Full-Stack Web Application

2025

- Developed a full-stack banking simulation app with features including account creation, secure login, balance inquiry, deposits, withdrawals, and money transfers.
- Built the frontend using HTML, CSS, and JavaScript, delivering a clean, intuitive interface with real-time feedback on all transactions.
- Engineered the backend with Node.js and Express, implementing authentication middleware and RESTful API endpoints for all banking operations.
- Persisted user data and full transaction history in structured JSON, demonstrating end-to-end data flow and full-stack integration.

Tech stack: HTML5 · CSS3 · JavaScript · Node.js · Express.js · JSON

Movie Discovery App | React Web Application

2025

- Built a responsive movie discovery platform enabling users to search for films and view detailed information including ratings and release dates.
- Designed a fast, component-based UI with React, leveraging state and lifecycle hooks for smooth, real-time interactions.
- Integrated The Movie Database (TMDB) API using asynchronous JavaScript and the Fetch API to retrieve and display live movie data.
- Optimized API call handling to manage loading states and errors gracefully, ensuring a seamless user experience.

Tech stack: React.js · JavaScript (ES6+) · Fetch API · TMDB API · CSS3

TRAINING & EXPERIENCE

Python Developer Training | Information Technology Institute (ITI)

Apr 2025

- Completed an intensive Python programming course covering core language fundamentals, control flow, functions, and file handling.
- Delivered a working project (rock-paper-scissors game) demonstrating proficiency in Python logic, loops, and user interaction.
- Gained exposure to best practices in writing clean, readable code in a structured training environment.

EDUCATION

B.Sc. in Software Engineering | Suez Canal University — Faculty of Computers & Information Sep 2023 – Present

Ismailia, Egypt · Expected graduation: 2027

- Relevant coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Systems, Software Engineering Principles.

CERTIFICATIONS

▪ Front-End Development Certificate	— Codecademy	May 2024
▪ Back-End Development Certificate	— Codecademy	May 2025
▪ Full-Stack Development Certificate	— Codecademy	Aug 2025
▪ Full-Stack Development Certificate	— Information Technology Institute (ITI)	Aug 2025
▪ Python Programming Certificate	— Information Technology Institute (ITI)	Jun 2025
▪ SQL Certificate	— Codecademy	Jul 2025
